

The new **IFCN Facebook page** is now live!

Communication in the 21st century is evolving and we want to be sure to maintain good contacts with all members of the IFCN affiliated societies. Additionally, events are happening all the time, news changes rapidly, and we want to be sure to keep everyone up-to-date.

We have had an outstanding website and we will continue that, but a Facebook page will deliver a more fast-paced picture of what's going on. We will have "news you can use", information about people, pictures, and, hopefully, some fun stuff as well.

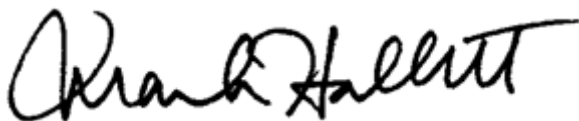

If you're a Facebook user, please sign on and search for International Federation of Clinical Neurophysiology. Then when you find the page, just click on the top part which has the name of the Society and you'll be taken directly to the page.

Please "Like" the page (and encourage your friends to do the same!) by clicking on the "Like" button so that you will receive important updates and articles from the IFCN. You can also get to the page by clicking on the Facebook logo on the home page of the IFCN website.

Volunteers Needed to Provide Posts to the IFCN Facebook Page

The IFCN is looking for ideas for posts to this page. Do you have a meeting you want to publicize? Did you just read an interesting article and think that other users of this page would be interested to? We're open to any and all suggestions. Please email the Secretariat office at sstevenson@venuewest.com.

Yours truly,

A handwritten signature in black ink that reads "Mark Hallett". The signature is written in a cursive, slightly slanted style.

Dr. Mark Hallett
President of the IFCN
